PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Python, SQL, data analysis, Google Cloud, and applied AI. Experienced in cleaning and transforming structured data, building automation pipelines, analyzing datasets, and developing AI-backed applications. Strong interest in Business Intelligence, data products, and using analytics to turn ambiguous business questions into actionable insights.

TECHNICAL SKILLS

Cloud & Data: Google Cloud Platform (GCP), BigQuery, Dataplex, BigQuery ML, Google Colab

Analytics & Visualization: Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, Data Validation, Matplotlib

AI / GenAI: Gemini, LLM APIs, RAG, Prompt Engineering, AI Agents, LangChain, TensorFlow, Keras, PyTorch

Development: FastAPI, Java, Git/GitHub, Firebase, Vercel

Programming and Data: Python, SQL, Pandas, Numpy, OpenPyXL, Scikit-learn

WORK EXPERIENCE

amasQIS.ai — AI Engineering Intern

April 2025 – September 2025

- Contributed to FastAPI backend services for document processing and medical coding by working on assigned components and checking their integration with AI inference services.
- Worked on a RAG pipeline using Ollama and PostgreSQL, helping with document parsing, text chunking, and retrieval, and verifying that the complete pipeline worked as expected.
- Used Python, OpenCV, Roboflow, and Streamlit to contribute to a real-time PPE detection workflow, while debugging issues and verifying model predictions and backend updates using Git.

PROJECTS

AQI Data Analytics and Prediction - AI Hiring Hackathon | Python, Pandas, Numpy, Matplotlib, Scikit-learn

[DEMO LINK](#)

- Performed exploratory data analysis on an Air Quality Index (AQI) dataset to identify distributions, correlations, missing-data patterns, and environmental factors influencing air quality.
- Engineered and evaluated additional features from the available variables to improve the analytical signal and model inputs.
- Trained and compared machine-learning models using cleaned and transformed data, translating findings into actionable observations.

Excel2KML Automation Tool | Python, Pandas, OpenPyXL, KML

[DEMO LINK](#)

- Built an automation pipeline to clean and validate survey/GIS datasets before converting structured Excel data into standardized KML outputs.
- Implemented automated preprocessing, column mapping, coordinate validation, and formatting to reduce repetitive manual data preparation.

ArthAI — AI Financial Operating System | Next.js, FastAPI, PostgreSQL, Supabase, Gemini, GCP

[DEMO LINK](#)

- Designed an AI-powered financial intelligence platform with a persistent reasoning layer for financial context, recommendations, and scenario analysis.
- Worked on structured financial data flows, business-rule logic, explainable scoring, and AI-driven recommendation workflows.

QuizWiz — AI-Enhanced Learning & Assessment Platform | Python, Open Trivia DB, Qwen-1.5B

[DEMO LINK](#)

- Engineered a full-stack quiz platform that generates topic-based questions and converts PDFs into interactive quizzes.
- Built customizable quiz workflows and reduced manual input by 60% through automated question generation.

CERTIFICATIONS & CLOUD CREDENTIALS

- Google Cloud Data Analytics Certification
- Google Cloud — Build a Data Warehouse with BigQuery
- Google Cloud — Create ML Models with BigQuery ML
- Google Cloud — Organize and Govern Data with Dataplex
- Google Cloud — Agent Fundamentals; Enterprise Agents and Use Cases
- Google Cloud — Create Your First Gemini Enterprise Application
- AMD Academy — AI Agents 101: Building AI Agents with MCP and Open-Source Inference
- AMD Academy — AI Agents 201: Design to Deployment: A Hands-On Guide to Multi-Agent Systems
- IBM AI Engineering Professional Certificate
- IBM — Python for Data Science, AI & Development
- IBM — Deep Learning with Keras and TensorFlow; Introduction to Neural Networks and PyTorch
- IBM SkillsBuild — Prompt Engineering; Build an AI Agent

ACHIEVEMENTS AND LEADERSHIP ROLES

- Smart India Hackathon 2025 — National Finalist & First Runner-Up among 50,000+ teams.
- Sangeet Visharad — Hindustani Classical Vocal Music, Prayag Sangeet Samiti, Allahabad.
- Best Cadet, NCC Republic Day Camp 2020 — Bhopal Group.
- Selected as a delegate for Yuva Sangam Phase 6, representing Madhya Pradesh in a national youth exchange program by the Ministry of Education.
- Led the design, branding, and outreach efforts for several student organizations, contributing to various technical, cultural, and community initiatives.
- Coordinated cross-functional teams during hackathons and technical projects to ensure timely execution and effective collaboration

EDUCATION

Vellore Institute of Technology - Bachelor of Technology (CGPA : 8.90)

2023-2027

Class 12th - 87.8% – MPBSE

2022-2023

Class 10th - 95.4% – CBSE

2021-2022
