

SHRUTI DEWASKAR

Hoshangabad, Madhya Pradesh - 461001 | +91 9479382188
shrutidewaskar2701@gmail.com | [Github/Shruti Dewaskar](https://github.com/ShrutiDewaskar) | [in LinkedIn](https://www.linkedin.com/in/shrutidewaskar)

TECHNICAL SKILLS

- **Programming and Frameworks:** Python, Java, SQL, JavaScript, TypeScript, FastAPI, Next.js, React
- **Machine Learning & AI:** TensorFlow, Keras, YOLOv8, OpenCV, Computer Vision, NLP.
- **Tools & Platforms:** GitHub, Vercel, Google Colab, Google Cloud Platform, Cisco Packet Tracer, Firebase

Work Experience

amasQIS.ai — AI Engineering Intern

April 2025 – September 2025

- Designed and implemented computer vision and healthcare AI solutions, including PPE compliance and medical coding, by integrating RAG and open-source AI models for text parsing and efficient extraction, reducing manual coding time by 30%.
- Optimized large-scale data pipelines to improve training efficiency and designed FastAPI inference services. Managed end-to-end dataset lifecycle from curation and annotation to model evaluation
- Collaborated cross-functionally across teams to ensure model robustness.

Projects

1.StackAudit | AI Tool Cost Optimization & Repository Audit Platform - [Demo Link](#)

Next.js • TypeScript • Tailwind CSS • Supabase • OpenAI APIs

- Developed a SaaS platform that analyzes over seven AI subscriptions, identifies redundant plans, and generates cost optimization recommendations based on established rules.
- Engineered pricing intelligence tools, automating savings estimations and interactive analytics dashboards to visualize over \$250k in annual AI spend for users.

2.ArthAI | AI-Powered Financial Intelligence Platform - [Demo Link](#)

Next.js • TypeScript • FastAPI • PostgreSQL • OpenAI • RAG

- Created a comprehensive financial platform to centralize budgeting, goal planning, and insights for middle-class households.
- Developed a modular AI ecosystem that supports conversational assistance, RAG-based knowledge retrieval, and explainable financial recommendations through scalable backend workflows.

3.QuizWiz | AI-Enhanced Learning & Assessment Platform - [Github Link](#)

- Engineered a full-stack quiz platform integrating Open Trivia DB and a Qwen-1.5B AI model to generate topic-based questions automatically and convert PDFs into interactive quizzes.
- Developed a dynamic user interface with customizable quiz creation, enhancing usability and reducing manual input by 60%.

4. VIT Campus Guide | Smart Navigation & Faculty Locator - [Github Link](#)

AutoCAD • Floor Planner • 360° Virtual Tours • Web Technologies

- Developed an interactive campus navigation platform that includes digital floor plans, 360° building tours, and a faculty office search feature.
- Enhanced campus accessibility by integrating spatial visualization and interactive navigation for students and visitors.

ACHIEVEMENTS AND CERTIFICATIONS

- Smart India Hackathon 2025 – National Finalist & First Runner-Up among 50,000+ teams.
- Sangeet Visharad – Hindustani Classical Vocal Music - Prayag Sangeet Samiti, Allahabad
- Best Cadet, NCC Republic Day Camp 2020 – Bhopal Group.
- IBM AI Engineering Professional Certificate.
- Google Cloud Data Analytics Certificate.

LEADERSHIP AND EXTRA-CURRICULARS

- Selected as a delegate for Yuva Sangam Phase 6, representing Madhya Pradesh in a national youth exchange program by the Ministry of Education.
- Led the design, branding, and outreach efforts for several student organizations, contributing to various technical, cultural, and community initiatives.
- Coordinated cross-functional teams during hackathons and technical projects to ensure timely execution and effective collaboration

EDUCATION

VIT Bhopal University
B.Tech–Computer Science & Engineering (2023 - 2027)

CGPA: 8.90 / 10

Class 10th - 95.5%
Class 12th - 87.8% (PCM Stream)

2020 – 2021
2021 – 2023
